

# WATER TASTER ACTIVITY

If you'd like to be a water-tasting judge, we invite friends to try this fun family activity!

## SUPPLIES:

- Norland Pure Enhanced Premium water (bottled or from your dispenser).
- Tap water
- 1-2 bottles of another water brand (or as many as you'd like)
- Bonus – throw in flavored water for a "taste teaser."
- Clear cups
- Marker
- Paper

## INSTRUCTIONS:

(Steps 1 & 2 should be done away from taste testers to ensure unbiased votes!)

1. **Number** the clear cups with a marker to match the number of waters you are testing.
2. **Fill** each cup with your different waters. Don't forget to write a note to remind yourself which is which!
3. **Give** your taste testers a piece of paper and writing utensils (or print this sheet).

Here's an example of the chart

	Water #1	Water #2	Water #3	Water #4	Water #5
Appearance					
Aroma					
Taste					
Mouth Feel					
Aftertaste					
Total					

4. **Vote!** Instruct your taste testers to try each water and score them from 1-5, with 5 being the best, based on each category. Read the pro tip next to each category for further instructions.

Appearance: \*Water should be clear

Aroma: \*Water should have no smell

Taste: \*Water should taste clean

Mouth feel: \*Water should feel light

Aftertaste: \*Water should leave you thirsty for more

5. **Add** the totals and reveal the brand name or type of water each taster liked best!

**Norland Pure is excited to offer a printable Water Taster certificate on our website. Please share/tag your activity with Norland Pure to be featured on our social media pages.**
